Our Vision

A world where all emergency departments provide the highest quality of care for older patients

Our Mission

We bring best practice into action.

We transform and evaluate interdisciplinary best practice in geriatric emergency medicine, and then build and distribute practical, evidence-based clinical curriculum and quality improvement tools that support sustainable, quality care for older adults.

GEDC Partners

gedcollaborative.com/partnership

Partnership

GEDC Partners work together to transform ED care of older adults; catalyze action at local and national levels to support these care transformations; and evaluate the impact of these new models of care for older people.

Join the GEDC

- Access to GEDC community
- Share best Geri ED practices
- Access to education tools
- Implementation tools and training
- Evaluation resources

Creating an Educated Workforce for the Geriatric ED

Expert Panel Webinar

The Geriatric Emergency Department Collaborative
June 6, 2022

 @theGEDC

www.gedcollaborative.com

What makes an educational experience successful?

Active involvement of the audience

Interactivity and participant engagement.

Participant gains new way of working and ways to change attitude.

Group discussions, and real-life scenarios.

Discussion.

Real-life examples.

Relevant to the adult learner.

Practical terms

Hearing from successful examples from practice.

Addressing diversity and inclusion

Being able to apply information in real work environments.

Application of knowledge.

Applicable to our setting.

Learning something I can apply

Relevant to the ED.

Applicable tools for day-to-day practice.

The Geriatric Emergency Department Collaborative

is dedicated to the optimal emergency care of older adults.

GEDC is a nationwide collaborative dedicated to improving the quality of care for older people in Emergency Departments with the goal of reducing harm and improving healthcare outcomes. We are committed to making change through the education of individuals, and hospital-wide initiatives that create sustainable improvements in practice at all levels.

Resources by Topic

FALLS & MOBILITY

Maintaining safe mobility, and specialized assessment of older adults who have fallen are essential in the geriatric ED.

COGNITIVE & BEHAVIORAL DISORDERS

Identification and management of these issues is to effective care of older adults in the ED.

EQUIPMENT & ENVIRONMENT

Simple environment modifications can make a big difference for an older adult who visits the ED

TRANSITIONS OF CARE

Interdisciplinary teams can work together to ensure safe and durable discharge of the complex older patient from the ED.

MEDICATION MANAGEMENT

Medication issues in older adults are common and important to understand in the geriatric ED.

MAKING THE CASE

Geriatric-focused quality improvements can improve patient satisfaction and reduce healthcare costs.

FRAILITY & COMPLEXITY

Older adults come to the ED with vague complaints and atypical presentations that require specialized assessment.

PALLIATIVE & END OF LIFE CARE

Caring for older patients in the ED involves palliative care and end-of-life conversations.

STAFFING & EDUCATION

The interdisciplinary team is the heart of the geriatric ED, and educating teams is the foundation of quality care.
